VAST COSI Driver 2.6.0 Release Notes 3

VAST COSI Driver 2.6.0 Release Notes

VAST COSI Driver 2.6.0 is released to General Availability as of January 2025.

This release does not include any new capabilities or changes to VAST COSI Driver.

VAST COSI Driver 2.6.0 can be used with Kubernetes 1.25 - 1.31.1 and VAST Cluster 4.1 or later.

To learn more about object storage provisioning with VAST COSI Driver, see *VAST COSI Driver Administrator's Guide*.
